Happy Halloween

Happy Birthday

Kash 10-7

Siddharth 10-9

Ms. Macy 10-9

Ms. KayLynn 10-16

Willamina 10-17

Jack 10-18

Brayden 10-27

Just a reminder Kelly's Kids will be closed Monday October 17 for our staff development day!

As the Infant Room said goodbye to Baylor and Jack they welcomed Bryce, Adrika, and Arshi. Ms. Pamela and Ms. Hannah are continuing to work on gross motor skills like sitting up, tummy time, scooting, and crawling. Soon they will be decorating the room with their Halloween art projects.

September flew by for the Peach Room, This month the class worked on sorting shapes. The older children are really getting the hang of this! Sensory is always a messy fun time! This month the Peach Room played with whipped cream. At first the children weren't very sure about it but once they tasted it they loved it! The teachers are looking forward to October where they can do lots of Halloween artwork and sensory play!

Yellow Room has been doing lots of sensory activities; playing with shaving cream and water beads. Ms. Hannah and Ms. Macy have been encouraging the children to learn motor skills such as

walking on taped lines, rolling balls back and forth, and using tongs to pick up cotton balls. Doing these activities are important because children aren't born with perfect motor skills they need to be practiced to master these skills.

In September the Green Room had a good time exploring all jobs people have in the neighborhood. The class talked about those who keep us safe, provide services, and even build the neighborhoods we live in. The class built houses and made homemade biscuits. During their fun with paint week the class had a good time painting with cups, q-tips, and their fingers. During their fun with paper week the class had fun tearing, scrunching up, and making paper puppet owls. In October the class will learn about the change of season, fall colors on the leaves, and scarecrows. They will also be having fun getting ready for Halloween. The class says "Watch out for ghost, bats and spider webs, and lots of pumpkins."

This month in the Blue room we learned about our shapes, germs, manners. For shapes week the class worked on shape flashcards, shape recognition worksheets and shape monsters. During germ week the class did a science project on how easily germs spread, and why it is so important to wash our hands. The class switched things up a bit during manners week. That week consisted of more verbal learning like learning to say please, thank you and excuse me. The children are still working on their sight words and Spanish during circle time. We hope parents are seeing their children point out words. If not yet don't worry they will get there!

Halloween party for every room will be Monday October 31st. Please bring your child with their costume in a bag labeled with their name. We will change them and start tick or treating around the center starting at 10am.

Topics This Month

Peach

- * Trees & Leaves
- * Pumpkins
- * Goblins & Ghosts
- * Happy Halloween
